

ACT NOW

Save the Endangered Dugong

The dugong (relative of the manatee) is a symbol of peace to the people of Japan ... yet its survival is threatened by a proposed giant U.S. military base to be built offshore, directly atop its habitat and sea-grass feeding grounds.

Only 30 to 50 of these gentle sea mammals remain off the shores of Japan. Japanese and U.S. activists have launched a campaign to save them. Please join us:

Write a Letter!

Go online and write a letter urging Japanese and U.S. officials to save the dugong:
